Internship @ Microsoft

Internship at Microsoft – students or fresh graduates

At Microsoft Global Technical Support Centre (GTSC), the sentence: “That’s not our problem” doesn’t exist in our lexicon. With more than 4000 employees, we deliver world-class assistance around the clock to businesses, partners and developers in 24 languages.

The Global Technical Support Centre (GTSC) located in Timisoara and Bucharest, provides high technical service and 3rd and 4th level support for Microsoft’s European Enterprise and Development customers.

Internship Requirements:

- Student in final year of study or fresh graduates
- IT background
- Fluency in English and a second European languages such as French, German, Italian, Spanish, Swedish and so on
- Passion for technology
- Analytical thinking
- Good communication skills
- Team player

The internship program is addressed to students in technical universities which intend to learn more about Microsoft technologies, culture and also to understand the role of Technical Support Engineer, by shadowing existing employees in solving high complexity technical cases for our clients.

The next Internship Program will be in the summer of 2013, three months both in Bucharest and Timisoara.

Internship Highlights & Benefits:

- Paid internship
- Receive training in order to find more about emerging technologies
- Access to the best technology resources
- MCP voucher(s)
- Accommodation in student campus for candidates from outside Bucharest or Timisoara
- Possibility to receive job offers as Junior Technical Engineer

In order to apply please send your resume to v-adric@microsoft.com and v-ioanat@microsoft.com
